Business Summary

Wireless internet service provider (WISP) specializing in providing high speed wireless internet to homes and businesses in rural Utah towns. Coverage area is 15,000 square miles (25+ zip codes). Strategic tower placement provides maximum market penetration, while exclusive access prevents competition from easily gaining market entry. The company markets high speed broadband connections and installs the wireless equipment for both commercial and residential use. Provides outstanding customer service and has a good name in the communities. Customer turn over is very low due to the limited options available in the market. This enables the company to retain the growing customer base. The Company is poised for growth and expansion in both the current area of operation and surrounding towns. Excellent ROI for large untapped market with the addition of new towers. During the past nine years this company has grown from a small start-up to a diverse company that is the technology leader in fixed wireless internet access offering complete solutions for home or office. the company was founded in 2000 to provide broadband access to rural areas. This provider has since become the pioneer in last mile network telecommunications infrastructure and Internet delivery for the market it serves. The company continues to show year over year growth with 25%-30% growth per annum.
